

# Govt. College, Jind

## Suggestions given by IQAC

### For the Session 2014-15

The Internal Quality Assurance Cell (IQAC) has become a driving force for ushering in quality by working out intervention strategies to remove deficiencies and enhance quality. All the quality assurance measures across academic, planning and administration, which were earlier independently monitored and executed at different levels, are now supervised by the IQAC. The IQAC has initiated the process of the development of quality benchmarks for academic and administrative activities of the college. IQAC suggested several quality initiatives for the institution for the session 2014-15:

- To make the students physically fit, IQAC suggested reintroducing the discontinued subject of Physical Education.
- More teachers should be engaged to meet the workload.
- New books and journals should be added to strengthen the library and facilitate the students and teachers.
- Security of the students must be ensured.
- Faculty members should be motivated to use ICT tools in their teaching.
- Faculty Development Programme should be strengthened.
- To inculcate the qualities of leadership and entrepreneurship women empowerment programmes should be initiated.
- Students should be trained to earn money by engaging themselves in productive activities.

## Action Taken Report
